# CURRENT OPPORTUNITIES WITH FAST

## IMPLEMENTATION CONSULTANT Requirements:

Implementation Consultants must be able to establish strong working relationships with the clients and interact effectively with all levels of personnel to ensure a smooth implementation.

- Degree in Computer Science, Computer/Management Information Systems, or Mathematics (graduates from other areas of study with relevant technical experience will also be considered)
- Experience in MS Visual Basic or an equivalent development language
- Prefer experience with Oracle DBMS or MS SQL Server
- Strong written and oral communication skills

### INTERNSHIP OPPORTUNITY!

As an Implementation Consultant Intern, you'll be exposed to all of the main components of a full-time position. While working with other FASTies, you'll get real-world experience in communication, technical problem solving, software testing, and more. Every day includes new challenges and responsibilities which makes the job interesting and rewarding.

## TECH TEAM MEMBER Requirements:

Tech Team Members support Project Management in the definition and technical validation of delivery schedules and plans. They ensure consistent and regular progress reviews with escalation and mitigation strategies for any risks.

- Degree in Computer Science, Computer/Management Information Systems, or Mathematics (graduates from other areas of study with relevant technical experience will also be considered)
- Experience in MS Visual Basic or an equivalent development language
- Experience in Structured Query Language (SQL)
- Experience in both Server and Network Administration
- Ability to provide hardware and security specification, procurement, and review; code optimization; application troubleshooting; disaster recovery planning and execution; and on-call support

## TRAINING COORDINATOR Requirements:

Training Coordinators are an integral part of project implementation teams. They must have strong organizational skills to create effective training plans. Analytical and problem-solving skills are also key to creating new ways to deliver training.

- Degree in Adult Education, Instructional/Curriculum Design, Business Administration, or an equivalent combination of education and experience
- Ability to assimilate technically complex information and express it clearly
- Excellent written and oral communication skills
- Self-motivation with the ability to work independently
- Personal integrity, confidence, and enthusiasm

## ABOUT FAST ENTERPRISES

FAST is dedicated to problem-solving, creating solutions, and maintaining strong partnerships with government agencies. We work and consult directly on-site with our clients across the world to successfully implement one of our four commercial off-the-shelf (COTS) software products: GenTax®, FastDS-VS®, FastUI®, and FastCSE®.
