Name: Gavin Mcroy

Please let me know a little bit about you by answering the questions below. One page at most!

Why Clemson?
I enjoy the energy of cities with lots of people plus there is always something to do

What's your major?
I am majoring in Computer Science

Answer one of these:
   If you're a CPSC Major, what do you think you want to do with a computer science degree?
   If you're <u>NOT</u> a CPSC Major, what prompted you to take this class?
I would enjoy to get into game development because it's something I've always had an interest in. The odd
      part is that I don't even play video games I just enjoy the process

Where are you from?
I am from Summerville SC

What are your hobbies?
One of my main hobbies is boxing as well as making games

Why are you interested in computers?
I enjoy the creation aspect and the capability to make anything on such systems

What computer programming experience do you have?
I have experience with Java C++ C# mainly for Unity. I've been doing it for a little bit but to no professional
      degree. I understand OOP concepts up to abstraction and interfaces but lack a foundation for
      algorithmic behaviors such as data sorting binary trees and so fourth.

Android or Apple…and why?
Apple has quality over android everyday of the week.
